Live the Life You Love by Willy Kelly

Verse 1:

A neighborhood party someone smiles, Says “hello”, it must be love
Smiling eyes, everyone knows sunny days, it must be love

Just a spark can start a flame, miracles happen, everyone knows
hopeful hearts they rule the world, good things happen, everyone knows

Then the party ends with all the things we could have said
The summer turns to cold, memories, what might have been...

Chorus:

Live... the life you love, Live... the life you love, Live... the life you love
Dream on for a while, Dream on for a while

Verse 2:

People plan, point A to B, Straight lines moving, on and on
Nothing hurts a moving target, Straight lines moving, on and on

One plus one with broken people equals heartache, it’s just math
but smiling eyes, a dash of faith, it’s sunny days, it’s just math

People plan, point A to B, While life happens on and on
Hopeful hearts they rule the world, good things happen, on and on

Iced tea on sunny days, Cocoa when it’s cold and rain
Eyes open every day, We spare ourselves a life of pain...

Chorus 2:

Live... the life you love, Live... the life you love, Live... the life you love
Dream on to the end, Dream on to the end
Dream on to the end, Dream on to the end
Dream on to the end, Dream on to the end…
